ERNIE'S VS. OTHER FUELING PROGRAMS

In today's competitive fuel market, it's important you research all your fuel card options to find the one that best fits your company's needs.

The chart above shows you how Ernie's Fueling Network compares to other programs and how we can provide more securities and controls, offering a variety of custom options.

Competitive Prices = More Savings

Wholesale vs. Retail - Average fuel prices for 12 month period

CFN & PACIFIC PRIDE WHOLESALE PRICING is offered at over 4,000 sites and based on the average daily OPIS/Cost Plus pricing, which is the actual cost of fuel from the nearest fuel rack in that area.

- ↑ When the cost of fuel rises, the CFN & PP Wholesale price goes up before the street retail price.
- ↓ When the cost of fuel goes down, the Wholesale price goes down before the street retail price.

In normal market conditions, we have learned through experience, that our wholesale sites can offer lower prices, on average, throughout the year. With reduced pricing, closer monitoring and managing of your fuel, your overall annual savings can be as much as 20%

PRICING AVAILABLE VIA:

- Online Account Access
- Weekly Site Pricing via e-mail or fax.
- Call office during business hours 8am-5pm PST.
